

The True Test

Tried in Barre, It Has Stood the Test.

The hardest test is the test of time, and Doan's Kidney Pills have stood it well in Barre. Kidney sufferers can hardly ask for stronger proof than the following:

Mrs. Margaret Reid, 40 Maple avenue, Barre, Vt., says: "I gave a public statement in favor of Doan's Kidney Pills in 1905, and I am glad to confirm it at this time for the benefit of all persons who suffer from kidney trouble. For more than three years I was bothered off and on by backaches, and at night I suffered so intensely that I could not sleep. During damp weather I was always worse and, although I wore plaster, I obtained only temporary relief. When Doan's Kidney Pills were recommended to me, I procured a box at E. A. Drown's drug store. They helped me in a short time, and I continued taking them until the pain in my back was entirely relieved. Doan's Kidney Pills benefited me in every way, and I have had little or no trouble from my kidneys since."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

INCREASE WEIGHT QUICKLY

Simple Way for the Thin and Pale to Be Plump and Rosy.

Samosa can hardly be termed a medicine; it is in reality a flesh forming food. Taken before or after meals, it mingles with the food you eat, enables it to assimilate and readily digests, so as to make rich blood and pleasing plumpness.

After Samosa has been used a week or ten days, a noticeable gain in weight is seen. The sallowness complexion will become rosy, the sunken cheeks will have a ruddy glow, the eyes will be bright, the breath sweet and the step elastic.

D. F. Davis' customers have told him of the remarkable results following the use of Samosa, the great flesh-forming food, and he is so thoroughly convinced of its reliability that he is selling it under his personal guarantee to refund the money if it does not do all that is claimed for it.

D. F. DAVIS SUCCESSFUL

After a great deal of effort and correspondence, D. F. Davis, the popular druggist, has succeeded in getting the Dr. Howard company to make a special half-price introductory offer on the regular fifty-cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures. Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles that D. F. Davis is willing to return the price paid in every case where it does not give relief.

So great is the demand for this specific that D. F. Davis has been able to secure only a limited supply, and everyone who is troubled with dyspepsia, constipation or liver trouble should call upon him at once.

WOMAN ESCAPES OPERATION

Was Cured by Lydia E. Pinkham's Vegetable Compound

to feel better when I had taken only one bottle of Compound, but kept on as I was afraid to stop too soon."—Mrs. SADIE MULLEN, 2738 N. B. St., Elwood, Ind.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

PRESIDENT AT ST. PAUL

Continued from third page.

and state authorities are more subject to corporate influence and control than would be the central government. In reply it is claimed that a readjustment of the terms of leasehold every ten years would secure to the public and the state just and equitable terms.

Then it is said that the state authorities are better able to understand the local need and what is fair adjustment in the particular locality than would be the authorities at Washington.

It has been argued that after the federal government parts with title to a power site it cannot control the action of the state in fulfilling the conditions of the deed, to which it is answered that in the grant from the government there may be easily inserted a condition specifying the terms upon which the state may part with the temporary control of the water power sites, and, indeed, the water power, and providing for a forfeiture of the title to the water power sites in case the condition is not performed, and giving to the president, in case of such violation of conditions, the power to declare forfeiture and to direct proceedings to restore the central government to the ownership of the power sites, with all the improvements thereon, and that these conditions may be promptly enforced and the land and plants forfeited to the general government by suit of the United States against the state, which is permissible under the constitution.

I do not express an opinion upon the controversy thus made or a preference as to the two methods of treating water power sites. I shall submit the matter to congress and urge that one or the other of the two plans be adopted.

O. K.'s Last Administration.

I have referred to the course of the last administration and of the present one in making withdrawals of government lands from entry under homestead and other laws and of congress in removing all doubt as to the validity of these withdrawals as a great step in the direction of practical conservation. But it is only one of two necessary steps to effect what should be our purpose. It has produced a status quo and prevented waste and irrevocable disposition of the lands until the method for their proper disposition can be formulated.

But it is of the utmost importance that such withdrawals should not be regarded as the final step in the course of conservation, and that the idea should not be allowed to spread that conservation is the tying up of the natural resources of the government for indefinite withholding from use and the remission to remote generations to decide what ought to be done with these means of promoting present general human comfort and progress.

For, if so, it is certain to arouse the greatest opposition to conservation as a cause, and if it were a correct expression of the purpose of conservationists it ought to arouse this opposition. Real conservation involves wise, nonwasteful use in the present generation, with every possible means of preservation for succeeding generations, and, though the problem to be solved is not easy, the burden is on the present generation promptly to solve it and not to run away from it as cowards, lest in the attempt to meet it we may make some mistake.

As I have said elsewhere, the problem is how to save and how to utilize, how to conserve and still develop, for no sane person can contend that it is for the common good that nature's blessings should be stored only for unborn generations.

I beg of you, therefore, in your deliberations and in your informal discussions, when men come forward to suggest evils that the promotion of conservation is to remedy, that you invite them to point out the specific evils and the specific remedies—that you invite them to come down to details in order that their discussions may flow into channels that shall be useful rather than into periods that shall be eloquent and entertaining without shedding real light.

The people should be shown exactly what is needed in order that they make their representatives in congress and the state legislature do their intelligent bidding.

foot, since he sprained his ankle two weeks ago.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.

cess in whatever their next business may be.

L. B. Adams has added to his store a place of amusement, in the musical line. Mr. Adams has a complete line of both vocal and instrumental music, and has a new Milton piano, which his customers are invited to use, for amusement or otherwise.

Patrons, please, to remember the next grange meeting, Wednesday evening. Our neighbors, Cabot grange, will be with us and a general good time is anticipated. Refreshments of cake and coffee and fruit will be served. Ladies will please to bring cake.

The following question will be presented for debate next Wednesday evening at the grange meeting and every member is asked to give the matter their earnest thought, that all may help to make the meeting one of profit. "Does woman in the house have more to do with the farmer's success than the fertility of the farm?" This question is furnished by the lecturer, Mrs. Nellie Southwick. The children of members are cordially invited to attend the meeting, and a program is being arranged in which they will take part.

creamy taste."

Think of the dozens of ways this ingenious device will cut down the work in the kitchen! Learn what it means to have hundreds of steps every day—to always have thick, creamy soap suds on tap. The "Richmond" Suds-Maker gives you any quantity of suds, and you can wash, scrub, scour, and wash as often as you like. It puts an end to the drudgery of dish washing, and keeps your hands and arms, your face, your hair, your silver, glassware under its creamy suds for an instant, then just rinse and wipe. It puts an instant, automatic end to waste, to unsightly soap dishes, to the nuisance of using up the ends and ends of soap. Use any kind of soap.

Just call on the plumber whose name appears below and ask to see the "Richmond" Suds-Maker. He will let you take one home to try. Use it ten days—then if you think you can spare it, return it, for the trial places you under no obligation to buy. This is your chance to learn about the greatest convenience, money and time saver you can install in your kitchen. Call today.
